

REDLINE PRECISION GROUP

Built for Industry. Driven by Precision.

MISSION STATEMENT

"Our mission is simple: deliver industrial solutions that are safe, precise, and built to last. We exist to give our clients confidence that every project – from installation to maintenance – will be executed with the highest standards of quality and reliability. At Redline, we measure success not just by what we build, but by the trust we earn."

ABOUT US

At Redline Precision Group, we exist to power progress with precision. As a trusted partner in industrial services and maintenance, we deliver expertise in electrical and instrumentation (E&I), rotating equipment, and a full range of solutions that support large-scale construction and operational projects.

Our story is built on decades of combined field experience – where safety, quality, and accountability aren't just checkboxes, but the foundation of everything we do. We understand that in today's industrial environments, there is no margin for error. That's why we bring a relentless focus on doing things right the first time, every time.

WHAT WE DO

We provide turnkey solutions that span the full project lifecycle: from installation and commissioning to long-term maintenance and reliability programs. Our expertise covers:

- Instrumentation and controls, including calibration and maintenance.
- Rotating equipment installation, alignment, and maintenance.
- Precision maintenance programs designed to maximize uptime and minimize downtime.
- Electrical installation of heavy industrial systems.
- Commissioning and startup services to deliver your project on time, with live completion data every step of the way.

INDUSTRIES WE SUPPORT

- Oil & Gas
- Petrochemical
- Power Generation
- Mining
- Heavy Manufacturing
- Renewable Energy
- Forest Products
- Data Centers
- Municipal Utilities

REDLINE PRECISION GROUP

Built for Industry. Driven by Precision.

OUR APPROACH

Every project is approached with a mindset of safety, precision, and partnership. We embed QA/QC at every step to ensure compliance, consistency, and long-term performance. Our crews are trained to work seamlessly within client operations, minimizing disruption while maximizing value.

WHY REDLINE

- Safety First: A culture that prioritizes people above all else.
- On Spec, On Time: Every deliverable meets specifications and deadlines.
- Built to Last: Quality installations and repairs designed for longevity.
- Trusted Partnerships: We don't just deliver projects – we build relationships.

THE REDLINE STANDARD

Our clients know that when they call Redline Precision Group, they're getting a partner who will stand behind their work. From the refinery floor to the paper mill, from renewable projects to municipal utilities, we bring the same level of commitment: reliable results, executed with precision.

COMMITMENT

At Redline Precision Group, our reputation is built on more than just technical ability. It's built on the trust of our clients, the safety of our crews, and the consistency of our results. Every project, no matter the size or scope, carries our commitment to excellence.

- Proven Expertise – delivering results in demanding environments.
- Built to Last – installations meeting the highest standards.
- Always On Spec – QA/QC alignment reduces rework and delays.
